Sustainable, High Performance & Technology  
Solutions for the Built Environment

National Institute of  
**2011** BUILDING  
ANNUAL MEETING SCIENCES

## Why attend the exhibit hall?

- Save time by seeing cutting edge technology all in one place at one time
- Save money by taking advantage of special show deals
- Locate BIM objects from leading building product manufacturers
- Discover new services

Ecobuild America, sponsored by the National Institute of Building Sciences, conference and exhibits uniquely address all the elements needed to create a better built world. One that is safe, healthy and environmentally sound.

**Questions? Call 800-996-3863**

As an industry professional, you are eligible for a **FREE Exhibit Hall Pass**, which gives you admission to:

Two days of exhibits: Wednesday December 7 – Thursday December 8. Educational sessions offered in these special attractions on the exhibit floor:

- AEC Interoperability Center
- BIMStorm DC
- BIM & Intelligent Buildings Theater
- Building Performance & Energy Theater
- Admission to free and open co-located meetings and events

**Register today at: [www.aecEcobuild.com](http://www.aecEcobuild.com)**

Ecobuild America provides timely and proven solutions for reducing environmental and energy impact throughout every phase of the facility lifecycle.

A conference and expo designed to help AEC professionals design and construct a better built environment. This event covers:

- Building Information Modeling (BIM)
- Geographic Information Systems (GIS)
- Green building
- High performance building
- Sustainability
- Energy efficiency
- Smart buildings
- Security and disaster preparedness and more

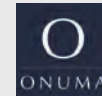

No matter what the discipline, attendees can harness the latest in technology, products and proven strategies to improve future projects. Ecobuild America, focused on the intersection where ecology meets technology, brings it all together for each and every member of the building team

## Benefits of attending Ecobuild America

- See new products
- Keep up to date on industry IT trends and issues
- See leading BIM and IT vendors in one location
- Meet with current suppliers
- Network with industry leaders
- See products “in-person” that were reviewed on-line

Ecobuild America's heartbeat is information technology. To achieve a better built environment, Ecobuild emphasizes that the myriad information technology tools available will help drive firms to design, build and operate projects better, cradle to cradle. At Ecobuild America, exhibits of hardware, software, BIM (building information modeling), communications, cloud computing and other related services are side-by-side next to building products and services. Ecobuild America stresses smart technology as a way to a better built world.

Ecobuild America addresses the entire project team and project lifecycle. Unlike most other industry events that are skewed to serving the members of a particular association or AEC discipline, the attendee make-up and demographics of Ecobuild covers the entire design, construction and owner team.

- Yes, please contact me via e-mail with my confirmation and important show related information.
- My firm is interested in exhibiting. Please send me your prospectus.

### 1. YOUR JOB FUNCTION (circle one letter)

- |  |  |
|--|--|
| A. CEO/Owner/Principal                                 | F. Facility Manager                      |
| B. VP/Department Head/other Executive Level            | G. Developer/Planner/Landscape Architect |
| C. Project/Construction Manager/other Management Level | H. BIM/CAD/IT Manager                    |
| D. Architect/Engineer/Designer/Specifier               | I. Consultant                            |
| E. Contractor/Homebuilder                              | J. Educator/Researcher                   |
|  | K. Product Design/Manufacturer/Sales     |
|  | L. Other _____<br>(Please list)          |

### 2. YOUR FIRM TYPE (circle one letter)

- A. Architectural/Interiors
- B. A/E or E/A, other multi-discipline
- C. Engineering (Environmental/ HVAC/ Mechanical/Electrical)
- D. Engineering (Civil/Structural/ Mapping/GIS)
- E. Engineering (Power/Process/Plant/Utility)
- F. Construction/Homebuilding/ Design-Build
- G. Government (municipal/state/federal)
- H. Development/Real Estate/Property Management
- I. Planning/Landscape Architecture
- J. Product Development/Manufacturer
- K. Consulting/Professional Services
- L. College/University/Research
- M. Trade/Industry Association
- N. Related AEC Profession

### 3. I AM A MEMBER OF (circle all that apply)

- |                                  |               |
|----------------------------------|---------------|
| A. ABC                           | L. DBIA       |
| B. ACEC                          | M. GBI        |
| C. AIA                           | N. HPBCCC/EER |
| D. AGC                           | O. ICC        |
| E. ASCE                          | P. IFMA       |
| F. ASHRAE                        | Q. NAHB       |
